

K-Love serves me as a resident of Helotes (outside of San Antonio). San Antonio's residents need to hear K-Love to be able to listen to Christian music and if it were to be displaced by an LPFM broadcaster providing other programming, where would we be able to hear the music that helps us through our days. Please leave things the way they are. The service that K-Love provides us is helping so many people in San Antonio be brought closer to Christ.
